

Explain proper scenario for following ping errors ?

Destination host unreachable

- * The Source PC has no valid route to reach the destination IP address.
- * There is no route for the destination IP address in the Source PC's routing table.

Request timed out

- * The data packet was sent, but no reply was received within the expected time.

Reply from some ip destination host unreachable

- * A router or Source device could not find a route to the destination.
- * The destination device cannot be reached from the current network path.

TTL expired

- * The packet exceeded its maximum hop limit (TTL) before reaching the destination and was discarded.
